

We celebrate the Earth every day at Land Shark Shredding!

100% of the confidential paper documents & E-Waste we destroy for our clients are recycled. In 2010, Land Shark Shredding's destruction efforts lead to recycling approximately **683 tons** of paper, which directly saved:

- 11,611 Trees
- 4,781,000 gallons of water
- 2,732,000 KWh of Electricity (enough electricity to power the average U.S. home for **284 YEARS**)
- 53,957 gallons of oil &
- 2,253.9 cubic yards of landfill space

Is it really back to school time already?? Say it ain't so!

All summer long, Land Shark will be raising money for the National Multiple Sclerosis Society ahead of September's "Walk MS" event in Bowling Green. Our goal is to hit \$10,000 by September 19. We are rallying on Don's behalf as he struggles with MS every day. If you're able, please register to walk with us after you make your donation! The more, the merrier!

-----NEWS FLASH-----

For the first time, criminal attacks are the No. 1 cause of data breaches in health care

Anyone responsible for healthcare data security should read the Ponemon Institute's 5th Annual Study on Privacy and Security of Healthcare Data, released a few weeks ago. That report should have caused alarm bells to go off - not just because of the skyrocketing number of reported incidents but also the endemic apathy that is numbing executives to the dangers facing their ePHI.

"It is hard to believe Land Shark is in its' 9th year of business! We never could have done this without you, our loyal clients. Although we may not say it nearly enough, THANK YOU for the privilege of being your professional information destruction company. It is, and continues to be, our honor to be your trusted security partner."

Sincerely,

Don Gerard, Jr., CPA, CSDS
President, Owner, and "Head Shredder Dude"
